COMP 433: Term Project

PHASE 2: Business Context and Overview

Revision 2

Due on April 12, 2021 at 2:00 PM

30 Points (15% Overall)

1 Phase 2: Business Context and Overview (30 points)

Category: *Team Task*

In phase 1, your team were approved to work on a specific business. In this phase, your team must think as the business owner with a business mindset to understand the business services, functions, users (or stakeholders), and the environment/circumstances that it will be used and eventually deployed in. To reach full understanding of the business, you are required to conduct a search of a similar business available online.

1.1 Phase 2 Deliverable

For submission, each team should fill few sections in the shared template for *Software Requirements Specification* (SRS) document. Each **team leader** is required to submit a modified version of the template as follows:

1. A single PDF file named **TeamName-SRS-Phase2.pdf**

2. Updated cover page with proper details about the project and team.

3. Updated revision history for proper revision tracking.

4. Updated Section 1 (Introduction) and Section 2 (Overall Description) based on conducted business research.

Report Writing Style: It is important to have a clear structure to the submitted report. Headings and subheading are particularly helpful in a report as they act as signposts for the reader. The style of report should be concise, giving precise detail. Flowery language or vague terms should not be used. Data may be presented as charts, graphs or tables, if appropriate.
